Material handling and storage equipment is an essential part of manufacturing, warehousing, distribution, consumption and disposal. When material handling system and processes are efficient and properly in place, it can improve customer service, reduce inventory, shorten delivery time, and lower overall handling costs in manufacturing, distribution and transportation.

Ace Exhibition brings together professionals from the fields of modern and smart material handling and storage equipment that incorporates a wide range of manual, semi-automated and automated equipment and systems. This three-day international show will help support logistics and make the supply chain work efficiently.

The **Material Handling and Storage Equipment Expo** is an excellent opportunity for the national and international companies to showcase their latest and greatest products and services, and also to connect with the right solution seekers. The exhibition will showcase smart products and technologies to make the supply chain work efficiently.
